## SUMMARY

Enthusiastic and detail-oriented Frontend Developer with a solid understanding of web development technologies, including HTML5, CSS3, JavaScript, and frameworks such as React. Eager to contribute to dynamic projects, leverage emerging skills in frontend design, and collaborate with cross-functional teams to deliver high-quality, user-centric solutions. Proven ability to quickly learn new technologies.

---

## SKILLS

Web-Technologies : Html , CSS , Framework & Library : NextJs & ReactJS . Tools : Eclipse, VSCode .  
JavaScript . Database : SQL, Firebase. Languages : Java , JavaScript.

---

## TRAINING

### JAVA Full Stack Development ----- Training Institute : JSpider Noida

Complemented academic learning with a comprehensive 5- month Java full stack training program, where I gained hands-on experience in the entire application development lifecycle. Developed a deep understanding of web development best practices, and the latest industry trends. Committed to continuously enhancing my skills and staying up-to-date with emerging technologies. Eager to leverage my knowledge and practical experience to contribute to innovative, high-quality software projects.

---

## PROJECTS

### Gym-Freak (<https://gym-freakss.netlify.app/>)

**Description** - The Exercise Detail Website project aims to create an informative and interactive platform where users can search for various exercises and obtain detailed descriptions along with visual demonstrations using GIFs. This website serves fitness enthusiasts, athletes, trainers, and anyone interested in learning about different exercises to improve their fitness routines.

### E-Commerce Website UI/UX ( <https://candid-raindrop-1744f2.netlify.app/> )

**Description** - This Website project is dedicated to creating an immersive and visually engaging online platform where animation plays a central role in enhancing user experience and storytelling.
